PROFILE

Full-stack web developer and Mathematics and Computer Science undergraduate at JKUAT with a strong quantitative foundation. Experienced in building web applications end to end, including a multi-branch point-of-sale system, and in data annotation work for AI training. Detail-oriented, analytical and reliable, with business experience in credit operations and in running a dairy farming enterprise. Seeking remote AI training, evaluation, and coding or mathematics project work.

CORE SKILLS

Mathematics	Calculus, linear algebra, probability and statistics, discrete mathematics, logical problem solving
Development	Full-stack web development, PHP, JavaScript, single-page applications, REST-style APIs, SQL databases
AI Training	Data annotation, content evaluation, following detailed guidelines with high accuracy
Business	Credit assessment support, record keeping, customer service, small-business management
Languages	English, Kiswahili

EXPERIENCE

Web Developer / Web Application Developer

- Designed, built, deployed and maintained full-stack web applications, from database to user interface.
- Delivered live applications for real use, including a business POS system and a student study app (see Projects).

Data Annotation Specialist

- Labeled, reviewed and evaluated data used to train and improve AI models.
- Applied project guidelines consistently, maintaining accuracy and quality across tasks.

Assistant Credit Manager — Amica SACCO

March 2024 – August 2024

- Supported the credit department in processing and assessing member loan applications.
- Helped monitor repayments and maintain accurate financial records.

Founder and Manager — Small-Scale Dairy Farm

Present

- Run day-to-day operations including livestock care, feeding, production and sales.
- Make data-driven herd decisions, weighing returns, calf and manure value, and feed efficiency.

PROJECTS

Kennet – Cloud-Based Multi-Store POS | PHP, JavaScript, SQL

kennet.onrender.com

- Built a point-of-sale and business management system with multi-branch support and an admin branch switcher.
- Features include inventory with low-stock alerts, cashier accounts, suppliers, purchases, expenses, receipts and approval-based refunds.
- Integrated M-Pesa STK Push payments and bulk Excel import for products and purchases.

StudyEasy – Study App for Students | Web application

studyeasy-1.onrender.com

- Designed and deployed a live web application that helps students study more effectively.

EDUCATION

BSc Mathematics and Computer Science
Jomo Kenyatta University of Agriculture and Technology (JKUAT)
Undergraduate, expected graduation December 2028

KCSE
Mean grade: **A-**
Mioro Secondary School, 2023
